

Quarterly Growth Momentum Supported FY2012 Results

First and Final Cash Dividend of 0.16 cents a share proposed

-----MEDIA RELEASE FOR IMMEDIATE CIRCULATION-----

(SINGAPORE, August 22, 2012) – SGX mainboard-listed Ellipsiz Ltd and its subsidiaries (the “Group”), a probe card and distribution & services solutions provider to the semiconductor, electronics manufacturing and telecommunication industries, today reported net profits after tax and non-controlling interests (NPATMI) of \$2.2 million on revenue of \$144.3 million for the financial year ended 30 June 2012 (FY2012).

Revenue declined by 18% from \$175.7 million to \$144.3 million for FY2012 amidst market weaknesses and volatile foreign exchange movements. Revenue from Probe Card solutions (PCS) and Distribution & Services solutions (DSS) segments decreased by 19% and 18% to \$35.3 million and \$109 million, respectively. For the quarter ended 30 June 2012 (4QFY2012), revenue was \$44.4 million, flat compared with \$44.6 million a year ago but a growth of 41% over 3QFY2012’s revenue of \$31.5 million.

The Group reported an NPATMI of \$2.2 million in FY2012 compared with \$10.3 million in the preceding year. During the year, the Group had one-time specific net charges of \$2.2 million relating to the cessation of pump refurbishment activity in Taiwan. This was in contrast with a one-time specific net income of \$3.1 million in FY2011 that arose largely from gains on disposal of assets held for sale and the reversal of impairment of investments in associates. Excluding the specific net charges / income, net profits attributable to our shareholders for FY2012 reduced by 39% to \$4.4 million, a resultant of the contraction in revenue, partially offset by incurrence of lower operating expenses.

Melvin Chan, CEO of Ellipsiz Ltd, said: “We are glad to have kept our momentum going and sustained our third consecutive year of operational profitability for FY2012. We are also pleased to propose a first and final cash dividend of 0.16 cents a share. Global economic environment is challenging but we believe our strong foundation and structure will help us through any trying condition. We will continue our efforts on building cost efficient manufacturing capacities, investing in research and developments, expanding our geographical networks and strengthening our logistics capabilities so as to deliver another fulfilling year to all of our stakeholders. ”
